

ASP FACTS

PRODUCT: Tactical Mirror

ADVANTAGE:

Tactical Mirrors are easily carried in the pocket and may be rapidly attached to an ASP Baton. They are ideal for drug search and room clearance operations. The mirrors allow an officer to see around corners without presenting a target. In addition, they are an ideal means of looking into areas without risking exposure to hidden needles.

SPECIFICATION:

- Drug searches
- Room clearance
- Contraband detection
- 3" diameter
- Less than 3/4" thick
- Protective case included
- Patent 5,386,322

PERFORMANCE:

When attached to an ASP Baton, the Clean Sweep® Tactical Mirror allows an officer to look around corners or view hidden contraband. At the same time, the officer is holding a weapon in the event of a sudden assault.

SALES STRATEGY:

Demonstrate the ease with which a Tactical Mirror can be removed from the pocket and attached to an ASP Baton.
