

ASP FACTS

PRODUCT: Combo Case

Tactical Handcuffs &
ASP Baton or Triad LED Light

Tactical Handcuffs &
Tungsten LED Light

ADVANTAGE:

The combination carrier allows an officer to group two essential tactical products together in a compact snap-on carrier. The case places a baton or light with a pair of handcuffs. The unit can be securely attached to the belt and readily removed when not in use.

SPECIFICATION:

- Handcuff carrier
- Baton or light scabbard
- Elastic side walls
- Laminated belt plate
- Split belt loops
- One direction snaps
- Handcuff Key Pocket

PERFORMANCE:

The Combo Case allows an officer to retain and quickly attach two essential pieces of tactical equipment. The platform is stable and secure. Presentation of handcuffs, batons and lights is rapid and positive.

SALES STRATEGY:

Show how the Combo Case retains either Chain or Hinge Handcuffs. Illustrate the interchangeability of ASP Batons and Triad Lights in the elastic side pocket scabbard. Demonstrate the stability of the case on the belt through use of the split belt loops. Point out the Handcuff Key Pocket and forged Pentagon Key.
